Our Commitment To You

We have a vested interest in your complete satisfaction with your total vehicle buying experience. In fact, that is exactly why this program was originally developed. Mechanical Protection Plan® (MPP) was developed in 1979 because many consumers had purchased service agreements from other companies – only to be mistreated when requesting service or lose their coverage because the issuer went out of business. We wanted to be sure consumers had a program that would be there for them when they needed it the most. We are the Mechanical Protection Plan® (MPP). Your trusted driving companion since 1979.
